PLATFORMS

Imagine you're walking through your college campus.
There's music. A crowd. And then you spot it — a bright green booth with a life-size Duo wearing a lab coat.

You step closer.

Someone hands you a phone and says,
"Wanna try talking to AI in French?"

You laugh, but try it.

Suddenly, you're in a Roleplay with an angry café customer. Duo corrects your grammar. You're weirdly... hooked?

Before you leave, they hand you a badge that says "AI just roasted me in Spanish" and snap a selfie of you with Duo. That pic? It's already posted on the new Duolingo Max Instagram page.

You scroll and see others — students just like you, trying it out, laughing, sharing stories.

And then you spot the slogan:

"Invest in your brain — not just your brew. Starts under ₹35/day."

Less than your daily chai. But way more rewarding.

That's how we don't just tell people about Duolingo Max —
We let them feel it, share it, and want in.

We saw you eyeing that passive voice lesson

Hello Naina,

Don't worry, we're not mad. Just disappointed (jk... kinda).

Duolingo Max remembers everything – especially your deepest language fears.

But guess what? Our AI explains like a boss, not like that confusing teacher you had in 8th grade. Come back. Finish what you started. And maybe finally learn what the subjunctive means.
