Why We Started

SuperOps is your ultimate toolkit, designed to optimize workflows, boost productivity, and streamline daily operations for MSPs and IT teams alike.

With SuperOps, IT heroes work smarter, faster, and more reliably, all while keeping things refreshingly simple. We give you the tools to focus on what you do best—delivering exceptional IT solutions and staying ahead with cutting edge AI and cloud tech. **Because even the best heroes need powerful tools.**

Redefine the way you
deliver IT.

[Home](#)[About](#)[Content](#)[Others](#)

Meet Our Founders

Our founders, **Arvind Parthiban (CEO)** and **Jayakumar Karumbasalam (CPTO)**, are more than just tech experts—they've been through the grind of running businesses and know what it takes to succeed when the odds are stacked against you. With over 40 years of collective experience in IT, they recognized that IT teams were stuck with tools that overlooked major IT needs.

Market Research & Competitor Advantage

[Home](#)[About](#)[Content](#)[Others](#)

Market Research:

- MSP Software Market: \$388M in Q2 2024 (+14% YoY)
- 337,000+ MSP companies globally; North America & Europe = biggest share
- Industry trend: Automation & AI adoption growing rapidly
- Competitors: ConnectWise (24%), Kaseya (23%), NinjaOne (9%), N-able (11%)

[Home](#)[About](#)[Content](#)[Others](#)

Competitive Advantage:

- Legacy Tools Issues: Complex, expensive, poor UX
- SuperOps Differentiators:
- Cloud-native, modern UX
- AI – automation & intelligent workflows
- Transparent pricing (no lock-ins)
- 24/7 customer support

[Home](#)[About](#)[Content](#)[Others](#)

NinjaOne

ninjaOne

Strengths:

- **User-friendly interface and ease of use. Strong performance and reliability. Extensive integration options.**

Weaknesses:

- **May lack some of the advanced customization options found in more complex platforms like ConnectWise.**

Opportunities:

- **Continued focus on customer experience and ease of use. Expanding their market share in the SMB space.**

Threats:

- **Competition from other RMM platforms with specific strengths.**

ConnectWise

Strengths:

- **Comprehensive suite of tools, including PSA, RMM, and automation. Strong integration with other ConnectWise products.**

Weaknesses:

- **Can be complex and overwhelming for some users, with a steeper learning curve. Reported issues with performance and occasional glitches.**

Opportunities:

- **Continued development of its AI capabilities for monitoring and automation. Expanding its integration ecosystem.**

Threats:

- **Increased competition from user-friendly platforms like NinjaOne. Potential for customers to switch to simpler, more efficient solutions.**

Target Audience & Buyer Persona

Target Audience Overview

Primary: Small–mid–sized MSPs (5–50 technicians)

- Owners/founders & operations managers
- –Focused on modernizing IT operations

Secondary: Internal IT teams at mid-market firms (100–1 000 employees)

- IT directors & managers
- Need unified service desk + RMM + automation

Demographics

Company size

- MSPs: 5–50 staff supporting dozens of clients
- Internal IT: 100–1 000 employees, lean IT team

Geography

- North America (~45% managed services revenue)
- Europe; growing APAC presence

[Home](#)[About](#)[Content](#)[Others](#)

Psychographics

Core values

- Efficiency, reliability, transparency, innovation

Motivation

- Scale operations, improve SLA performance, be “trusted IT hero”

Attitudes

- Pragmatic and growth-driven, but cautious about major platform changes

Online Behaviour

Research channels

- MSP forums: Reddit r/msp, Spiceworks
- Industry blogs: ChannelE2E, MSPSuccess
- Review sites: G2, TrustRadius

Content formats

- E-books, whitepapers, how-to videos, webinars (MSPworld, IT Nation)

[Home](#)[About](#)[Content](#)[Others](#)

NEEDS:

- Unified platform to replace multiple tools
- AI-powered automation for efficiency
- Scalable solution for growing client base
- Better productivity and cost optimization

BARRIERS:

- Budget constraints for new platform adoption
- Concerns about migration complexity
- Resistance to change from existing team

DESCRIPTION

Rajesh manages IT operations at a growing MSP but struggles with multiple disconnected tools.

DEMOGRAPHICS:

- Name: Rajesh Kumar
- Age: 28
- Location: Bangalore, India
- Occupation: IT Operations Manager at mid-sized MSP
- Income Level: ₹8,50,000
- Gender: Male

TRIGGERS:

- Free trials with immediate value demonstration
- Peer testimonials from successful MSPs
- ROI calculators showing cost savings

PAIN POINTS:

- Managing 5-6 different tools daily causing inefficiency
- Struggling to scale operations with growing client demands
- Manual processes eating up billable hours

MEDIA CONSUMPTION:

Home

About

Content

Others

NEEDS:

- Intuitive ticketing and remote-support tools
- Clear task prioritization and automation for routine fixes
- In-app collaboration features for quick escalations

BARRIERS:

- Steep learning curve for new platforms
- Lack of time for tool training
- Resistance from senior techs to change workflows

DESCRIPTION

Sneha is an early-career support technician handling 50+ tickets weekly.

DEMOGRAPHICS:

- Name: Sneha Patel
- Age: 24
- Location: Hyderabad, India
- Occupation: MSP Support Technician
- Income Level: ₹4,00,000
- Gender: Female

TRIGGERS:

- Interactive product walkthroughs
- Hands-on trial with real-world troubleshooting scenarios
- Video tutorials on common MSP workflows

PAIN POINTS:

- Repetitive manual tasks reducing billable time
- Frequent tool-switching slowing ticket resolution
- Difficulty tracking issue history across disparate systems

MEDIA CONSUMPTION:

[Home](#)[About](#)[Content](#)[Others](#)

Positive Lead Scoring

Lead Action or Attribute	Points	Why it Matters
Selected “MSP” from dropdown	5	ICP match (Managed Service Provider = SuperOps target)
Team size selected (6–10 or higher)	10	Indicates potential for scale
Started 14-day free trial	20	Strongest buying intent
Booked demo via form	15	Sales-ready (SQL)
Clicked CTA in any email	15	Engaged with brand
Replied to nurture email or submitted feedback	10	Two-way engagement
Watched onboarding/tutorial video to end	15	Shows real product interest
Reached “Upgrade plan” or “Billing” settings (in-app)	10	Purchase-ready signal

[Home](#)[About](#)[Content](#)[Others](#)

Negative Lead Scoring

Lead Behavior or Attribute	Points	Why it Matters
No interaction post sign-up (7 days)	-15	Indicates drop-off
Unsubscribed from emails	-30	Cold or irrelevant lead
Did not open any 3 nurture emails in a row	-10	Passive interest
Opened emails but no click-throughs	-5	Low engagement
Gave no optional info in form	-5	Less likely to respond to outreach
Bounced email	-20	Lead is unreachable
Repeated visits to support/complaints page only	-10	Could indicate wrong-fit or unsatisfied experience
Company from unrelated industry (if captured)	-10	Not aligned with ICP

[Home](#)[About](#)[Content](#)[Others](#)

Lead Stage Classification Based on Score

Score Range	Lead Stage	CRM Label	Action
0-30	Cold Lead / MQL	"Nurture - Early"	Continue nurture via email/chatbot
30-70	Hot MQL / MoFu	"Nurture - Warm"	Send case studies, prompt chatbot
70-100	SQL	"Sales Ready"	Assign to sales / trigger demo call

Drip Email Campaign

When a user signs in , the strategy focuses on building trust and delivering quick value through a personal CEO welcome and seamless onboarding. As they explore the product, engagement is nurtured with helpful tips, use cases, and social proof. Toward the end of the trial, timely offers and reminders drive conversion, reinforced by a final push from leadership. After converting, a post-purchase journey ensures confidence, activation, and long-term retention.

Drip So Good, It
Converts Itself

[Home](#)[About](#)[Content](#)[Others](#)

Welcome Mail

The welcome email is sent immediately after sign-up and comes directly from the CEO. It sets a personal, trustworthy tone, introduces the brand's mission, and makes the user feel seen and valued. This helps create an emotional connection right from Day 0, increasing the chances of engagement and activation.

TOFU

Enjoy your SuperOps trial

Hi Milind,

Welcome to SuperOps! I'm Arvind, the CEO, and I'm thrilled to have you on board. Your decision to join us means a lot, and I'm committed to ensuring your experience is exceptional.

KPI'S For Mail

KPI	What It Measures	Good Benchmark (B2B SaaS)
Open Rate	% of recipients who open the email	20% – 30%
Click-Through Rate (CTR)	% who click a link in the email	2% – 5%
Click-to-Open Rate (CTOR)	Clicks ÷ Opens	10% – 15%
Conversion Rate	% who complete desired action (e.g. purchase)	1% – 3%
Trial-to-Paid Rate	% of trial users who upgrade	15% – 25%
Bounce Rate	% of undelivered emails	<2%
Unsubscribe Rate	% who opt out of future emails	<0.5%
Spam Complaint Rate	% who mark as spam	<0.1%

[Home](#)[About](#)[Content](#)[Others](#)

Chatbot Flow

- Proactive Assistance: “Hi, Looking for a better PSA-RMM Experience?”
- Quick CTA Buttons: Book Demo | Start a free trial | Ask Question
- Lead Qualification: Role, company size, pain points
- Goal: Capture 10–20% more leads vs forms alone

Chatbot Flow

(Real-Time Lead
Capture &
Qualification)

[Home](#)[About](#)[Content](#)[Others](#)

CRO Strategy Recommendations

Based on industry benchmarks for SaaS:

- Avg Time Spent: 4:00 mins
- Avg Conversion Rate: 3.5%

(assumed current performance for project purposes):

- Avg Time Spent: 1:45 mins
- Conversion Rate: 1.2%

Recommended CRO Strategies:

Improve Above-the-Fold Content

- Include a concise value proposition & client logos/testimonials
- Justification: First 10 seconds decide bounce — this increases trust & engagement

A/B Test Email CTAs

- Test “Start Free Trial” vs “See SuperOps in Action” in drip emails
- Justification: Improves CTR → more traffic to form pages → better lead quality

Speed & Mobile Optimization

- Ensure chatbot opens fast and landing pages load <2 sec on mobile
- Justification: Majority of B2B research now starts on mobile

Add Trust Signals on Form Pages

- Add “Used by 10,000+ MSPs” + G2 rating stars near form
- Justification: Social proof increases form fill confidence

[Home](#)[About](#)[Content](#)[Others](#)

Attribution Model

U-Shaped Attribution:

- Emphasizes **First & Last Touch** (40% each):
- First touch = where the lead first discovered you (e.g. LinkedIn ad).
- Last touch = what convinced them to convert (e.g. demo booking).
- Middle touches (20%) split across **nurturing activities** (emails, chatbot, case studies).

Attribution Model Recommendation: U-Shaped Model & Justification

ATTRIBUTION MODEL
(U-SHAPED)

Why it fits SuperOps:

- You run full-funnel campaigns:
Ad → Form → Email → Demo → Trial → Conversion.
- Your buyers (MSPs) have multiple interactions before converting.
- You want to know what generated interest and what closed the lead
